

Diabetic macular oedema – afibercept – initial grandfather authority application

Online PBS Authorities

Requesting PBS Authorities online provides an immediate assessment in real time.

For more information and how to access the **Online PBS Authorities** system, go to servicesaustralia.gov.au/hppbsauthorities

When to use this form

Use this form to apply for **initial grandfather** PBS-subsidised afibercept 8 mg/0.07 mL injection for patients with diabetic macular oedema (DMO) who have received non-PBS-subsidised treatment with afibercept 8 mg/0.07 mL injection for the same condition prior to **1 October 2024**.

Important information

Initial grandfather applications to start PBS-subsidised treatment for each eye can be made in real time using the **Online PBS Authorities** system or in writing and must include sufficient information to determine the patient's eligibility according to the PBS criteria.

Under no circumstances will phone approvals be granted for DMO **initial grandfather** authority applications.

The information in this form is correct at the time of publishing and may be subject to change.

Continuing treatment

This form is **ONLY** for **initial grandfather** treatment.

A patient may qualify for PBS-subsidised treatment under this restriction once only per eye.

After an authority application for **initial grandfather** treatment has been approved, applications for **continuing** treatment with afibercept 8 mg/0.07 mL injection for the same eye as per the PBS restriction is **Authority Required (STREAMLINED)** and does not require prior authority approval from Services Australia for the listed quantity and repeats.

Treatment specifics

Authority approval for **initial grandfather** treatment of each eye must be sought.

Where both eyes are affected by the condition, a quantity of 2 units can be requested through the same authority application.
