Instructions for the doctor

About this report

This report will be used to assist in determining if your patient is medically eligible for an Australian Disability Support Pension.

Payment for your report

We have asked your patient to let you know at the time of making their appointment that they require you to complete this form. This is to ensure you have sufficient time for the examination. Your patient has been informed that they are responsible for any costs in obtaining this report.

Completing this report

In this report you will be asked to provide clinical details of the patient's medical conditions. Please complete all the required parts of the form.

Your patient's impairment is to be assessed when they are using or wearing any aids, equipment or assistive technology that they have and usually use (e.g. hearing aids, spectacles, contact lenses or prostheses).

Returning the report to us

Please return this report and any attachments as soon as possible directly to us, or if you prefer, you can give the report and any attachments to your patient to return to us.

About the information that you give us

Confidentiality of Information

The personal information that is provided to you for the purpose of this report must be kept confidential under section 202 of the *Social Security (Administration) Act 1999*. It cannot be disclosed to anyone else unless authorised by law.

There are penalties for offences against section 202 of the Social Security (Administration) Act 1999.

Release of information

The *Freedom of Information Act 1982* allows for the disclosure of medical or psychiatric information directly to the individual concerned. If there is any information which, if released to your patient, may harm his or her physical or mental well-being, Services Australia can contact you. Please indicate at PART i if you wish Services Australia to contact you. Similarly please specify any other special circumstances which should be taken into account.

Privacy and your personal information

The privacy and security of your personal information is important to us, and is protected by law. We collect this information to provide payments and services. We only share your information with other parties where you have agreed, or where the law allows or requires it. For more information, go to servicesaustralia.gov.au/privacy

PART A - Cardiovascular, respiratory and other conditions impacting physical exertion or stamina PART A should be completed for conditions impacting physical exertion or stamina including but not limited to: cardiac failure, cardiomyopathy, ischaemic heart disease, chronic obstructive airways/pulmonary disease, asbestosis, mesothelioma, lung cancer, chronic pain which impacts physical exertion or stamina, end stage organ failure, widespread/metastatic cancer and chronic fatigue syndrome. 1 Does the patient have a Go to PART B No cardiovascular, respiratory Give details below or other condition impacting physical exertion or stamina? Instructions for the doctor If the patient has more than one condition of this type, provide details here for the condition that causes the *greatest* impact on ability to function. Details of other conditions can be provided at PART F. Please provide answers to the following questions based on clinical assessment, results of tests and investigations, and current scientific knowledge. Self-reported symptoms alone are not sufficient. a report from the doctor or specialist doctor who usually treats this condition (if not you), and copies of relevant test and investigation results (e.g. lung function tests, blood tests, exercise tolerance tests, ECG – reports only), if available. **Diagnosis** 2 What is the diagnosis? Provide specific details (e.g. include the International Classification of Diseases code and/or staging as relevant). 3 The diagnosis is: Who confirmed the diagnosis? Confirmed Name Qualifications Presumptive Are further investigations/assessments planned to confirm the diagnosis? No Yes What was the date of Month Day Year diagnosis? What was the date of onset Day Month Year of symptoms (if known)? What is the prognosis of this condition? Give a timeframe, if applicable. **Treatment** 7 What treatment is currently being provided for this condition (e.g. hospitalisation, surgery, medication, physical therapy, rehabilitation, pain management)?

AUS109.2411

Provide specific details (e.g. date of commencement, frequency and duration of treatment or rehabilitation, type and dose of medications).

| 8 | How effective is current treatment? Describe response to treatment and degree of control of symptoms. | |
|----|---|---|
| 9 | Describe any adverse effects of treatment, including severity. | |
| 10 | What treatment has been undertaken in the past (e.g. hospitalisation, surgery, medication, physical therapy, rehabilitation, pain management)? Provide specific details (e.g. date of commencement, frequency and duration of treatment or rehabilitation, type and dose of medications). | |
| 11 | Does the patient wear or use any aids, equipment or assistive technology for this condition? | No Go to next question Yes Olive details below |
| 12 | Is any future treatment planned for this condition? | No Go to 14 Yes Give details below |
| 13 | What is the expected benefit of future treatment? Detail improvement in symptoms and functional capacity. | |
| 14 | Indicate compliance with recommended treatment: | Very compliant Usually compliant Rarely compliant Uncertain Detail any issues related to accessing or undertaking suitable treatment that affect compliance levels. |

| | Is the average life expectancy of a person with this condition shorter than 24 months? | No Yes | | | | | |
| | | | | | | | |

PART G – Additional information

PART H - Capacity for work or training

Instructions for the doctor

PART H is to provide a holistic summary of the patient's current and potential capacity for work.

- . Only those medical conditions with impact on functional capacity expected to persist for more than 2 years should be considered in assessing the patient's work capacity.
- Rate how the patient's work capacity is affected by their medical conditions now and over the next 2 years. This means any work the patient is capable of performing regardless of the availability of that work and without regard to the patient's age, educational level and current work skills.
- Tick **one** option for each column in the work capacity tables.
- · Respond even if the patient has not worked for some time.
- **142** Indicate your assessment of the patient's capacity to do any work WITHOUT ANY INTERVENTION programs:

i.e. WITHOUT programs that are designed to assist people back into the workforce (e.g. on the job training, vocational rehabilitation).

| Work capacity | Current | Within 6 months | 6–24 months | More than 24 months |
|--------------------|---------|-----------------|-------------|------------------------|
| 0–7 hrs per week | | | | |
| 8–14 hrs per week | | | | |
| 15–29 hrs per week | | | | |
| 30+ hrs per week | | | | |

Type of work

Suggested suitable work

Provide reasons for work capacity and type of work recommendations

| | | |
|------|------|--|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

143 Indicate your assessment of the patient's capacity to do any work WITH INTERVENTION programs: i.e. WITH programs that are specifically designed for people with physical, intellectual or psychiatric impairments (e.g. vocational rehabilitation, disability employment services) AND those that are not (e.g. vocational or per-vocational training, on the job training and educational programs).

| Work capacity | Current | Within 6 months | 6–24 months | More than 24 months |
|--------------------|---------|-----------------|-------------|------------------------|
| 0–7 hrs per week | | | | |
| 8–14 hrs per week | | | | |
| 15–29 hrs per week | | | | |
| 30+ hrs per week | | | | |
| | | | | |
