

When to use this form

Use this form to apply for the Practice Incentives Program (PIP) and/or the Workforce Incentive Program (WIP) - Practice Stream.

Important information

Health Professional Online Services (HPOS) provides secure and convenient online services for health professionals and administrators.

Using your Provider Digital Access (PRODA) account details, you can make claims and update your practice details through HPOS. Lodgements through HPOS are effective immediately.

To register for a PRODA account or to find out more about HPOS, go to servicesaustralia.gov.au/hpos

Program guidelines

Practices **must** read the relevant guidelines for each program and individual incentive they are applying for to make sure they meet all of the ongoing eligibility requirements. To obtain a copy of the relevant guidelines for the PIP and the WIP - Practice Stream, go to servicesaustralia.gov.au/pip or servicesaustralia.gov.au/practicestream

Practice accreditation requirements

To be eligible to participate in the PIP and/or the WIP - Practice Stream, a practice must be accredited or registered for accreditation against the Royal Australian College of General Practitioners (RACGP) Standards for general practices (the Standards) and provide evidence to support this.

Accreditation must meet the RACGP Standards and be noted on the certificate provided by the accrediting body. Accreditation certificates with the notation 'Approved Medical Deputising Service (AMDS)/After Hours Medical Deputising Service (AHMDS)' standards are not eligible for the purposes of the PIP and the WIP - Practice Stream.

Practices must make sure their accreditation is up-to-date. Practices registered for accreditation must obtain accreditation **within 12 months** of being approved for the program.

If accreditation is **not received within 12 months** of being approved for the program, the practice will not be eligible for any further payments until accreditation is received, even if the registered for accreditation certificate is extended.

If your practice is applying as a **PIP consenting practice**, the practice's accreditation details registered in the PIP will be used for the WIP - Practice Stream.

Benefits of becoming a PIP consenting practice

If your practice is already participating in the PIP and applying for the WIP - Practice Stream, or applying for both programs, you can become a PIP consenting practice.

This means you consent to the following PIP information being used for the WIP - Practice Stream:

- practice name and main address
- eligibility details, such as accreditation, public liability insurance and indemnity insurance
- bank account details
- contact details
- location details
- ownership details
- general practitioner details, and
- your Standardised Whole Patient Equivalent (SWPE).

When you have become a PIP consenting practice, your practice IDs will become identical and you will only need to update your practice details in your PIP profile. You will not need to make the same updates to your WIP - Practice Stream profile.

Definition of general practitioners and nurse practitioners

For the purpose of the PIP and the WIP - Practice Stream:

- **general practitioners include:**
 - general practitioners
 - non-specialist medical practitioners, known as other medical practitioners, who provide non-referred services but are not general practitioners

 - vocationally registered general practitioners
 - medical practitioners undertaking approved training
- **a nurse practitioner** is a person who is endorsed as a nurse practitioner by the Nursing and Midwifery Board of Australia.

A procedural general practitioner provides non-referred services, normally in a hospital theatre, maternity care setting or appropriately equipped facility, which in urban areas are typically the province of a specific referral-based specialty. These services are provided in obstetrics, surgery and anaesthetics. The PIP Procedural General Practitioner Payment can only be made to one practice per 6 month reference period per procedural general practitioner. If you want this practice to receive the PIP Procedural General Practitioner Payment, indicate the provider number to be used below that is associated with this practice.

Tier 1 I provide at least one procedural service in the 6 month reference period. Read the **PIP Procedural General Practitioner Payment guidelines** for the definition of a procedural service.

Tier 2 I meet the Tier 1 requirements and provide procedural services after hours (as defined in the **PIP Procedural General Practitioner Payment guidelines**) on a regular or rostered basis throughout the entire 6 month reference period.

Tier 3 I meet the Tier 2 requirements and provide 25 or more eligible surgical and/or anaesthetic and/or obstetric services in the 6 month reference period.

Tier 4 I meet the Tier 2 requirements and deliver 10 or more babies in the 6 month reference period.

Contact us if you are a single general practitioner practice and may not meet the requirements of Tier 4, but expect to meet the obstetric needs of your community.

General practitioners are individually assessed. Practices with more than one procedural general practitioner cannot count the combined number of deliveries to qualify for Tier 4. For more information on reference periods and the point-in-time date for the 6 monthly payments, read the **PIP Procedural General Practitioner Payment guidelines**.

We must be advised **at least 7 days** before the relevant point-in-time date, if the required number of procedural services have not been provided in the 6 month reference period.
