PBS

Paroxysmal nocturnal haemoglobinuria – eculizumab or ravulizumab – initial grandfather authority application

Online PBS Authorities

You do not need to complete this form if you use the **Online PBS Authorities** system.

For more information and how to access the **Online PBS Authorities** system, go to **servicesaustralia.gov.au/hppbsauthorities**

When to use this form

Use this form to apply for **initial grandfather** PBS-subsidised eculizumab or ravulizumab for patients with paroxysmal nocturnal haemoglobinuria (PNH) who had, prior to **1 March 2022**:

- received non-PBS-subsidised treatment with eculizumab or ravulizumab – maintenance phase
- received eculizumab through the Australian Government's Life Saving Drugs Program (LSDP) and are continuing on eculizumab.

Important information

Initial grandfather applications to start PBS-subsidised treatment can be made using the **Online PBS Authorities** system or in writing and must include sufficient information to determine the patient's eligibility according to the PBS criteria.

Under no circumstances will phone approvals be granted for PNH **initial grandfather** authority applications.

Complement 5 (C5) inhibitors are defined as eculizumab or ravulizumab.

The information in this form is correct at the time of publishing and may be subject to change.

Continuing treatment

This form is ONLY for **initial grandfather** treatment.

For **continuing** PBS-subsidised treatment, the patient must qualify under the **first continuing** or **subsequent continuing** treatment criteria.

Section 100 arrangements for eculizumab and ravulizumab

These items are available to a patient who is attending:

- an approved private hospital, **or**
- a public hospital

and is a:

- day admitted patient
- non-admitted patient, **or**
- patient on discharge.

These items are not available as a PBS benefit for in-patients of a public hospital.

The hospital name and provider number must be included in this authority form.
