## Disability Support Pension

You may get the Disability Support Pension if you have any of these sicknesses:

- sugar problems
- kidney dialysis
- heart problems
- hearing problems or deafness
- cancer
- get short breath when walking a little bit and you need puffers
- are permanently blind
- need to be looked after because you cannot feed, dress or wash yourself
- are really sick and you might pass away in less than 2 years
- you have ongoing mental health issues where you do not feel good in the head and will not get better
- been sick a really long time and not getting better.

You will need to claim and sign a form called Consent to Disclose Medical Information (SA472). This gives your ok for our special staff to talk to your doctor, clinic or community nurse. This helps us get the details we need about your sickness.

If we think you should get Disability Support Pension, our special staff will work with you.

They might call you to talk about your:

- disability claim
- reason for needing Disability Support Pension
- medical evidence and history.

When our special staff call you, you can tell them if you want your support person or an interpreter.

If your reason for needing Disability Support Pension does not meet our rules, your claim might be rejected.

### If you need more information, you can:

- visit your local Services Australia (Centrelink) service centre
- talk to Services Australia (Centrelink) when they visit your community
- call the Indigenous Call Centre on 1800 136 380.

If you call us, you will need to tell us your Customer Reference Number (CRN) and answer some questions about who you are, so that we make sure it is you.

You can also ask for an interpreter when you call or visit us. We will provide one for free.
